

Full Frame

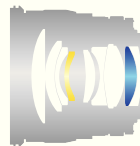

Your Bright Days  
with Samyang 50mm

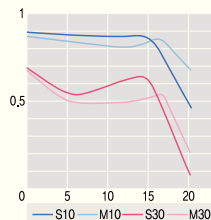

### 50 mm F1.4 AS UMC

It is a standard lens with bright aperture for full frame sensors. You can create clear results under relatively dim circumstances with the low F number.

- Hybrid aspherical lens (H-ASP)
- Glass aspherical lens (ASP)
- Circular aperture with 8 blades
- Soft and wide focus ring
- UMC technology of Samyang Optics

H-ASP ASP

low chromatic aberration

low coma

low flare & ghost

fast aperture

bokeh
