NEW

AF 85mm F1.4 FE FULL FRAME

AF 85mm F1.4 FE cherishes Samyang's world class optical technology while envisioning a new leap forward, with its quick and accurate autofocus performance and excellent resolution. Its complex optical construction is comprised of 11 glass elements, among which are special High Refractive (HR) glass, which successfully allow both a compact size and high image resolution.

- Exceptional rendering even at the brightest apertures
- Exceptional bokeh
- Expressing a visual feeling of depth
