24 mm F1.4 ED AS IF UMC

Samyang Optics' optical construction actualizes beautiful bokeh. Glass aspherical lens increases light penetration and Ultra Multi Coating is used to minimize ghost and flare.

- Glass aspherical lens (ASP)
- Extra low dispersion lens (ED)
- Circular aperture with 8 blades/inner focus (IF)
- Inner focus (IF)
- UMC technology of Samyang Optics

low chromatic
aberration

low coma

low flare
& ghost
