150

Macro
f/2.8
mm

Modern and versatile macro telephoto lens designed for **full-frame** high-resolution DSLR cameras. Its **large aperture** of **f/2.8** facilitates shorter exposure times, while its moderately long **focal length** of **150mm** provides an excellent compromise between the narrow viewing angle desired in advertising and portrait photography, and the convenience of hand-held photography.

The lens is equipped with an aperture mechanism consisting of **11 aperture blades** with a rounded shape which provides a pleasant blur of background and points of light. In the case of studio and macro photography, this number of aperture blades makes the diffraction phenomenon appear much later, which ensures a clearly greater detail of the image.

The unique feature of the **Irix 150mm f/2.8** lens is the **1:1 Macro reproduction ratio** already available at a focusing distance of 0,345m. High precision of focusing across the entire range is ensured by a wide, rubber-coated **focus ring** with a **rotational angle of 270°**. An additional Focus Lock ring ensures that the focus position remains fixed when needed.

The **Irix 150mm f/2.8 Macro 1:1** uses a total of **five rubber seals** and a number of other improvements that further protect the interior of the lens and allows shooting in **extreme weather conditions**.

The lens is equipped with a **detachable tripod collar ring**, making it easier when needing to place the camera vertically onto the tripod in order to take portrait shots, and so providing a better balance of the camera with the attached lens.

The **Dragonfly** version

The **Irix 150mm f/2.8 Macro 1:1** is the first lens available in the new **Dragonfly** series, which combines the lightness and perfect ergonomics of the **Firefly** and the durable magnesium housing used in the **Blackstone**.

Dragonfly

- › Lightened Aluminium internal frame
- › Lightweight composite housing reinforced with Al-Mg alloy and anti-scratch finish
- › Anti-slip coating on focusing ring
- › Engraved markings covered with UV reactive paint
- › Superior dust and moisture protection (5 sealings)
- › Supplied with a convenient hard-case
