

# First we take you to the edge. Then we give you a push.

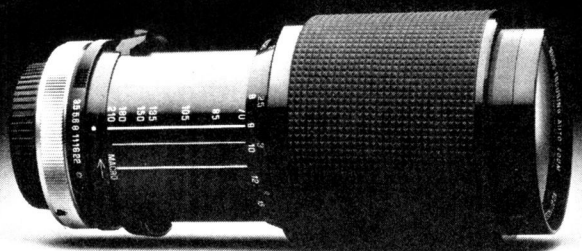

The Vivitar Series 1® 70-210mm f3.5 macro focusing zoom took the industry by storm when it was first introduced. It's the pioneer, the leader, the standard by which all other zoom lenses are judged. Because it literally lets you go to the limit. With sharper resolution from edge to edge. With a fast maximum aperture, even at 210mm. And now, for a limited time, it lets you go somewhere else. To the bank, with \$40.00.

**Vivitar®**

**We're out to open your eyes.**

**The push: \$40 back.**

## **Vivitar Series 1**

When you buy a Vivitar Series 1 70-210mm f3.5 macro focusing zoom and mail the sales receipt and owner information card to Vivitar, we'll send you a check for \$40 within 6 weeks. This offer is good only in the U.S.A. and may be withdrawn at any time. So if we were you, we'd hurry.
