

AF 50mm F1.4 FE II

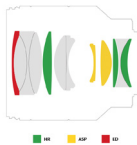

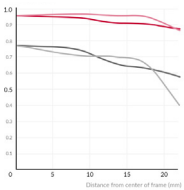

FULL
FRAME

All New Standard

The AF 50mm F1.4 FE II is the smallest (88.9mm/3.5in length) and lightest (420g/14.8oz weight) among all the large-aperture standard 50mm focal length lenses compatible with the Sony FE mount, so it's even a perfect match to compact Sony mirrorless cameras with a gimbal.
